Introductory

THIS catalog is prepared especially for your convenience in ordering parts and supplies for Coleman Lamps, Lanterns, Camp Stoves, Irons, Heaters, Burners, Cabin and Trailer Stoves, Ranges and Accessories. It gives a complete list of parts with net retail prices for the different models made by The Coleman Company, Inc.

When Ordering always be sure you have the correct number and description of the part or parts ordered. This insures prompt handling and quick delivery of your order.

Repair Service—It is the policy of The Coleman Company, Inc., to cooperate with users of Coleman products in assisting them to secure the largest measure of satisfaction from their purchases. We therefore maintain a Repair and Service Department at each of our branch houses, located at Second and St. Francis, Wichita 1, Kansas; 332 East Third St., Los Angeles 54, Calif.; 401 N. Broad St., Philadelphia 8, Pa.; 589 E. Illinois St., Chicago 11, Ill., and 29 South King St., Honolulu, T.H., (Territory of Hawaii). It is the duty of these departments to furnish operative and handling suggestions and to supply the necessary parts for all Coleman products at reasonable prices.

How to Ship Packages—When sending in goods for repairs, service or credit, please observe the following points:

1. See that goods are securely packed to prevent damage in transit.
2. Address package to the Coleman office nearest you and mark it "Attention Repair and Service Department."
3. Be sure to put your name and return address on the package, also.
4. Send package by **insured** parcel post, (insured parcels are traceable), express, or freight.
5. **Prepay all transportation charges.** We do not pay incoming transportation charges, except by special agreement.
6. On the same day that you send the package, write a letter to The Coleman Company, Inc., Attention Repair and Service Department, and give instructions as to what you wish done. Tell us how the shipment is being sent—by insured parcel post, express or freight. Mail your letter separately—do not send it inside the package.

It is the intention of each Repair and Service Department to handle all items the same day received. By making shipments as outlined above, you will materially assist us in speeding up the service and the attention your orders will receive.

Returns and Allowances—Please do not return merchandise to the factory for credit without first having obtained permission and shipping instructions. Otherwise this merchandise will be held at owner's risk. When merchandise is returned by agreement with transportation charges prepaid, credit will be issued on a basis of not exceeding the original invoice price, less an inspection, handling and restocking charge of 10%. Obsolete, shelfworn or damaged merchandise will be subject to appraisal and credit issued on a basis thereof.

COLEMAN REPAIR PARTS ASSORTMENTS

HOW TO ORDER REPAIR PARTS ASSORTMENTS

Save Money by Ordering Under the "Fifty Dollar Order Plan"

Any parts order including small appliances placed with your jobber for direct factory shipment and totalling fifty dollars or more at net dealer prices qualifies under our \$50 Order Plan for an extra 5% discount and actual freight allowance not to exceed a rate of \$3.00 per cwt. When making up an order totaling \$50 or more under the \$50 Order Plan, mantles, globes, shades, and small gasoline appliances may be included such as lamps, lanterns, gasoline irons, trailer hot plates, camp stoves, pocket stoves, handy gas plants, and urn burners.

Any parts order including small appliances placed with your jobber for direct factory shipment and totaling \$150 or more at net dealer prices qualifies under our \$150 Order Plan for an extra 10% discount and actual freight allowance not to exceed a rate of \$3.00 per cwt. When making an order totaling \$150 or more under the \$150 Order Plan, mantles, globes, shades, and small gasoline

appliances may be included such as lamps, lanterns, gasoline irons, trailer hot plates, camp stoves, pocket stoves, handy gas plants, and urn burners.

After a careful analysis of our sales and repair department records over a period of years, the following assortment of spare parts are suggested as a basic stock for the maintenance of Coleman Instant-Lite Irons, Lamps, Lanterns and Camp, Cabin and Trailer Stoves.

These assortments include only the most called-for parts and are based on our sales records over a period of several years. They represent only a minimum stock. Dealers serving a large trade area should increase their orders and parts stock proportionately.

NOTE: Open market Heaters and Trailer Ranges are not to be included in either the \$50 or \$150 order plans.

COLEMAN MANTLES

As manufacturers of Coleman Lamps and Lanterns, it is to the interest of ourselves and to our dealers to supply the public with the best mantle it is possible to produce.

We use only the best light-giving chemicals, correct fabric, and proper size to give maximum brilliance. Good mantles satisfy—poor mantles do not repeat. Play safe—sell only Coleman Mantles.

SILK-LITE MANTLE No. 21A

Longer Life

Triple-lock weave with reinforced bottom, where pressure is strongest, contribute to long life of mantles. All Coleman mantles are denitrated, moisture proof, and will not deteriorate with age.

Lower Cost

Coleman Silk-Lite Mantles cost less to use in the long run because they outlast and outshine cheaper mantles, or even mantles priced the same.

Retail Price, each.....2 for \$.25
Retail Price, Per ½ Doz..... .60
Retail Price, Per 1 Doz..... 1.20

Greater Strength

Triple Lock Weave, high quality materials, and scientifically correct shape and size, give unusual strength to Coleman Silk-Lite Mantles.

More Light

Only the highest grade of light-giving chemicals are used in Coleman Silk-Lite Mantles. The chemicals are used in correct proportions to give the most intense brilliance.

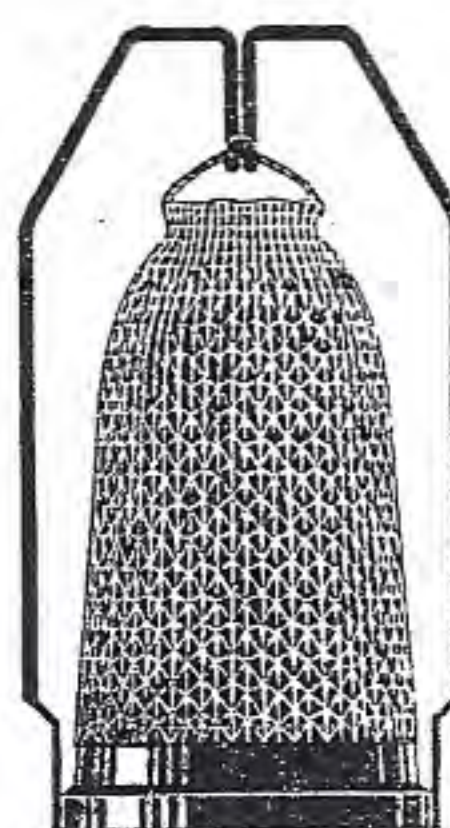

SILK-LITE MANTLE

No. 20 Senior—A large mantle for use where the greatest amount of light is needed and only one mantle is used. Designed for the No. 237A Lantern. Same quality materials as used in the No. 21A Junior Mantle.

Retail Price, each..... 25c
Retail Price, Per ½ Doz..... 1.20
Retail Price, Per Doz..... 2.40

KER-O-LITE MANTLE AND HOLDER

No. 159—Coleman Ker-O-Lite Mantles are saturated with the same light-giving chemicals as the mantles used on Coleman Gasoline Pressure Lamps. Ker-O-Lite Mantles are woven with the new double-lock stitch, that braces the mantles three ways, giving them more strength so that they last longer and require less frequent replacements.

No. 159—Mantle, complete with Stainless Steel Holder.

Retail Price, each.....40c

RAYTEX MANTLE

No. 31 Junior — An unusually good grade, low priced mantle made of specially selected Rayon fibre, single weave design. While not as good as the Coleman Silk-Lite it has greater durability and gives more light than many so-called "quality" mantles.

Retail Price, each..... 10c
Retail Price, Per ½ Doz..... 50c
Retail Price, Per Doz..... 1.00

KER-O-LITE MANTLE WITHOUT HOLDER

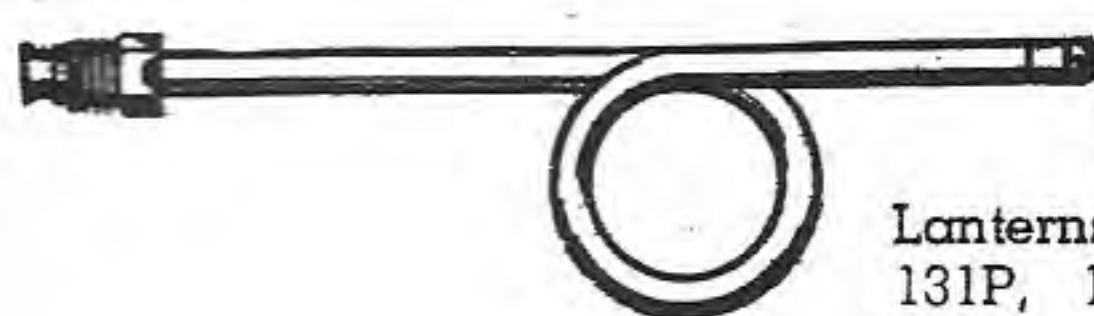

No. 139—Ker-O-Lite Mantle is the same as the No. 159 except that it is less the stainless steel holder. There is no need to buy a new holder each time you replace the mantles. Simply slip the new mantles on the long-life holder and enjoy the savings.

Retail Price, each.....30c

FOR LONGEST SERVICE FOR BEST SERVICE

Use only Genuine Coleman Parts and Accessories on these Coleman Appliances . . . Each individual part is designed to exact precision and to work perfectly with all other parts; therefore, only Genuine Parts and Accessories can be trusted to give satisfactory service. The use of other than Genuine Coleman Parts and Accessories invalidates the Coleman guarantee.

The Coleman Line Now Includes Appliances for Cooking, Lighting, Heating and Ironing for which every home--both city and country is a prospect all the year round.

The Parts Display Cabinet illustrated on the inside front cover will help advertise your store as headquarters for Coleman Appliances and service.

Always Use Fresh, Clean, Unleaded Fuel in Coleman Appliances

Coleman Gasoline Pressure Appliances are built to operate properly on any fresh, clean unleaded motor gasoline or Stove and Lamp naphtha. "STRAIGHT-RUN" gasolines and naphthas make the best appliance fuels.

Many of the lower priced unleaded motor gasolines are excellent fuels for gasoline pressure stoves, ranges, heaters, camp stoves, lamps, lanterns, irons, blow torches, etc. Such gasolines may be either white or colored.

DO NOT USE ANY FUEL CONTAINING LUBRICATING OIL, GRAPHITE, OR ETHYL FLUID. Such substances rapidly clog appliance generators.

Many oil companies now market "Stove and Lamp Naphthas" which are carefully refined and so handled as to prevent any contamination in storage or shipment.

Ask your oil company representative if one or more of his fuels are suitable for this class of service. If he does not know, ask him to find out and arrange to keep on hand a supply of fuel for your Appliances.

Ways to Store and Handle Fuels for Gasoline Pressure Appliances

1. Keep the fuel in clean, small closed metal cans with vapor tight caps, and store in a cool place. Never use glass containers even for pouring gasoline. (Exposure to air, sunlight, or heat causes gasoline to become discolored and form gums which rapidly clog generators and other important parts of the appliance.)
2. When transferring gasoline from one container to another, keep the metal containers in actual contact with each other. Rest the spout of the can on the edge of the funnel.
3. Buy a fresh supply often—once a week during hot weather.
4. Clean out fount, or tank frequently—once a month in hot weather. If the appliance has not been used for several months, rinse the fount with fresh, clean fuel before using.
5. When an appliance will not be used for several weeks be sure to remove all gasoline from the tank before storing it away. This will prevent the formation of those varnish-like gums which clog appliance generators.
